

Building on the Turnigy iA6B, HobbyKing are now providing the 10 channel Turnigy TGY-iA10B. This receiver is capable of iBUS, SBUS, PPM and PWM for enhanced control. These are an excellent addition to your Turnigy TGY-i6s and TGY-i10 transmitters.

This full 10 channel receiver works for most models and is considered a "full range" so it can handle larger models as well as the smaller ones. Dual antennas give the TGY-iA10B for unparalleled reception.

Built in connections allow you to use our optional telemetry sensors.

Easy binding, light weight, optional telemetry, dual antennas, what else could you ask for.

Features:

- Reliable, interference free 2.4GHz AFHDS 2A signal operation
- Ultra light weight design
- Dual antennas for most reliable interference-free operation
- Connection ports for use with optional telemetry sensors

Specs:

Channel: **10**

Frequency: **2.4GHz ISM Frequency Range**

Output data: **PPM, i.BUS, S.BUS, PWM**

RF Power: **< 20dBm**

Power: **4.0V~6.5V**

Working Current: **82mA**

Dimensions: **51x35x16mm**

Net Weight: **20g**

Range: **> 500 meters**
