User Manual × 1

Quick Guide

① Touch-activated Technology

Turn on this digital pen by simply tapping the end and the indicator light turns blue, easy to operate and no need to install Apps or connect Bluetooth.

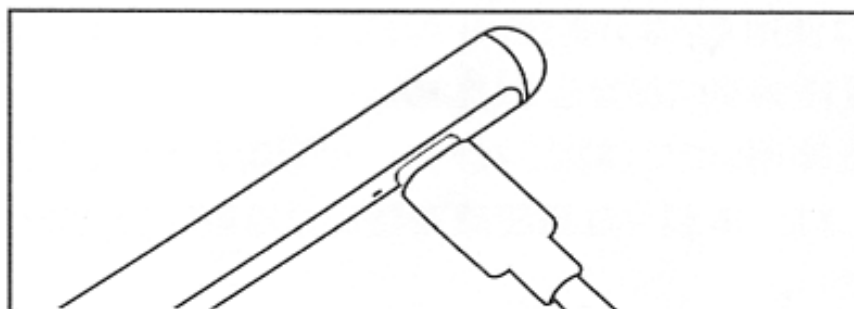

② 5 Mins Auto Sleep

The digital pen will automatically power off after 5 minutes of inactivity to save the energy and keep longer battery life.

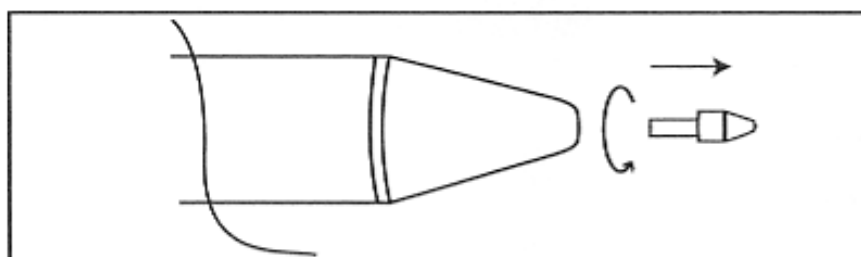

③ Charging

The indicator light will blink red with low battery. It can be connected to computer, adapter or power bank with type-c cable for charging. The Indicator light will be red when charging, and it will turn green when full charged.

④ Replace the Stylus Tip

Rotate the tip counterclockwise and change a new one.

Compatibility

iPad Pro 12.9 inch (4th Gen)	A2229/A2069/A2232/A2233	13.4

Warm Tips

1. The stylus pen does not work for iPad pro 12.9" 1st & 2nd, iPad pro 10.5", iPad pro 9.7", earlier versions of iPad, iPhone, Android, Microsoft devices.
2. If the stylus or finger cannot write on iPad screen with correct model, please set your iPad or iPad Pro as follows:
Settings>Apple Pencil>Turn off the Apple pencil.
Settings>Notes>Turn off "Only draw with Apple Pencil".
3. Please ensure it has enough power before use and notice that there is no different press sensitivity, all lines are at the same thickness.
